Public Health England (PHE) Segmenting tool for Life Expectancy gaps with Wirral Report

The [Segment Tool](#) has been developed by Public Health England's Epidemiology and Surveillance team and provides information on life expectancy and the causes of death that are driving inequalities in life expectancy at national, regional and local area levels. Targeting the causes of death which contribute most to the life expectancy gap should have the biggest impact on reducing inequalities. View Wirral's report [here](#)

Dashboard of cancer related information with [Wirral information here](#)

NHS England and Public Health England [have launched a new online dashboard of cancer-related information to support CCGs and providers](#), which brings together data from across patient pathways into one, easy-to-use portal. The aim is to show comparative performance across the country at CCG and provider level using metrics like one-year survival, cancer patient experience and the number of cancers diagnosed through emergency presentation, to help reduce variation and improve services. The dashboard was developed in response to a recommendation of the Independent Cancer Taskforce and was launched alongside the [NHS cancer strategy implementation plan](#). Access Wirral information [here](#) (please allow time for webpages to load)

Other recent highlights include:

- Wirral Early Years Foundation Stage: Briefing paper on 2015 results [here](#)
- New '[Wirral Plan](#)' content on the JSNA website aims to link evidence from the JSNA to relevant pledges and strategies
- Wirral Domestic Abuse Needs Assessment is available [here](#)
- Wirral's profile for Excess Winter Deaths (2013/14) is available [here](#)
- Wirral's local alcohol profile - 2016 annual data update [here](#)
- Wirral Child Sexual Exploitation Profile from Wirral Safeguarding Children's Board [here](#)
- Wirral's local tobacco profile [here](#)
- Wirral Cardiovascular Disease profile updated [here](#)
- High Blood Pressure Profile for Wirral [here](#)
- Children & Young People (with maternity & early years) [here](#)
- Simple Map of [Wirral wards and constituencies](#) or other maps [here](#)
- Indices of Deprivation JSNA web page has our [Local 2015 Profile](#)
- Child Health Clinical Indicator Summary for Cheshire and Merseyside [here](#)
- [Previous Bulletins](#)

Local Partner News

The [exhibition 'First World War: Charity and Liverpool's Home Front'](#), is supported by Armed Forces Covenant, and runs from 17 June to October 2016 at the Museum of Liverpool, with the exhibition examining untold stories of First World War. Exhibition leaflet [here](#)

Here is the fourth edition of our Trust magazine, [CWP Life](#). The aim is to make the magazine more about the people of CWP and their stories – the people who work each day to provide excellent care, the people who work alongside CWP to deliver joined up care, and most importantly, the people who access CWP services, their carers and families.

If you have any ideas for articles or would like to be featured in an edition, please let CWP know by emailing them at info@cwps.nhs.uk or calling 01244 397393.

July's Healthwatch Wirral Newsletter [here](#) Previous editions [here](#) and website [here](#)

[National Carers Strategy Consultation extended to 31st July 2016](#) – we have a future update of JSNA Wirral Carers section planned

More information related to local issues

[Active travel: a briefing for local authorities](#) (May 2016)

This guide suggests a range of practical action for local authorities, from overall policy to practical implementation. It highlights the importance of community involvement and sets out steps for transport and public health practitioners. Access the guide [here](#)

[A framework for supporting teenage mothers and young fathers](#) (May 2016)

PHE and LGA jointly [published a new framework](#), developed with six LAs in the North West, to help commissioners and service providers review and improve coordinated support arrangements for young parents in their area. To accompany the framework PHE has developed a [Teenage Parent Outcomes Modelling Tool](#), which brings together data and evidence about factors that affect outcomes for teenage parents and their children. It can be used by local areas to model the impact of certain services, for example setting up a new stop smoking service for young mothers. Access the framework [here](#)

The [Family Resources Survey \(FRS\)](#) is a continuous household survey which collects information on a representative sample of private households in the United Kingdom. Detailed information is recorded on respondents' income from all sources; housing tenure; caring needs and responsibilities; disability; expenditure on housing; education; pension participation; childcare; family circumstances; child maintenance. The [latest report and tables](#) summarise key findings from the FRS for the 2014/15 financial year when around 20,000 households were interviewed

[Smoking, Drinking and Drug Use among Young People in England](#)

This report contains results from an annual survey of secondary school pupils in England in years 7 to 11 (mostly aged 11 to 15). 6,173 pupils in 210 schools completed questionnaires in the autumn term of 2014. NatCen Social Research (NatCen) and the National Foundation for Educational Research (NFER) carried out the survey for the Health and Social Care Information Centre (HSCIC). This is the most recent survey in a series that began in 1982. Each survey since 1998 has included a core set of questions with the emphasis of the 2014 survey on smoking and drinking whilst still containing some information on drugs. Access the survey results [here](#)

[A different ending: End of life care review](#)

The importance of good end of life care cannot be overestimated. In the majority of cases, people receive end of life care that is caring and compassionate – but people from certain groups in society may experience poorer quality care because providers and commissioners do not always understand or fully consider their specific needs. Access the review [here](#)

[All Our Health](#) is a call to action to healthcare professionals working with patients and the population to prevent illness and protect health and promote wellbeing. Access the report [here](#)

[Health matters: improving the prevention and diagnosis of bowel cancer](#)

Public Health England (PHE) wants to see fewer people develop bowel cancer and encourage more eligible people to come forward for screening, to achieve an uptake target of 75%. This resource highlights what we know about how bowel cancer affects people. Access resource [here](#)

[Statistics on Obesity, Physical Activity and Diet](#) Health and Social Care Information Centre (HSCIC)

This [visual statistical report](#) presents a range of information drawn together from a variety of [sources](#). Each section provides an overview of the key findings, as well as providing sources of further information and links to relevant documents and sources. Access resource [here](#)

This fifth edition of [Health Matters](#), a resource to support professionals working to improve population health, focuses on giving every child the best start in life.

This edition makes the case for investing in the early years and outlines how to support women, and their partners, from conception through to pregnancy and into parenthood. [Read the new publication](#) which focuses on the crucial period from pregnancy to the age of 2, and [the pack of infographics](#) as information about early years services.

[Statistics on Smoking](#) Health and Social Care Information Centre (HSCIC)

This visual statistical report presents [a range of information](#) on smoking from a variety of sources. The report aims to present a [broad picture of health issues](#) relating to smoking in England. Access the report papers [here](#)

[Drink Tracker and tools](#)

Drinkaware have produced a number of [online tools and advice](#) to help people to understand and track their drinking, and potentially change habits for the better. Their simple [unit and calorie calculator](#) works out the number of alcohol units and calories consumed. Access tools [here](#)

[Heatwave Plan for England](#) has been updated for 2016 with new resources that collectively seek to protect the population from heat-related harm to health. Access plan and resources [here](#)
