More information related to local issues

[How much sugar is hidden in drinks marketed to children? A survey of fruit juices, juice drinks and smoothies.](#) The aim of this study was to investigate the amount of sugars in fruit juices, juice drinks and smoothies marketed to children. Access report [here](#)

Children who live in poverty are more likely to be solitary and to fall out with friends or be bullied according to new analysis of age 11 sweep data from the Millennium Cohort Study, published by the [National Children's Bureau](#)

[Briefing for Local Enterprise Partnerships on health and work, worklessness and economic growth](#)

This briefing is for decision-makers in local enterprise partnerships (LEP) who are developing local economic strategies. It summarises the potential contribution of health with employment and economic growth, and proposes effective ways to tackle these issues focusing on people: in employment with health conditions; at risk of falling out of work and onto welfare benefits; or with health conditions not in employment who are receiving benefits. Access briefing [here](#)

[Challenge on dementia 2020: implementation plan](#)

The Prime Minister's Challenge on Dementia 2020 contains over 50 commitments that together aspire to make England the best country in the world for dementia care and support, for people with dementia to live; and to conduct dementia research. Access plan [here](#)

[CCG improvement and assessment framework 2016/17](#)

NHS England has launched a new Improvement and Assessment Framework for Clinical Commissioning Groups (CCGs), which will include ratings published online to show patients how their local health service is performing in six important areas, including mental health, learning disabilities and maternity care. Access guidance [here](#)

[Child Road Safety in Great Britain, 2010-2014](#) (RAC Foundation) (April 2016)

This report looks at child road casualties in Great Britain for the five years between 2010 and 2014. It looks at how children travel, the geographical distribution of child casualties and how the time of day, a child's age, gender, travel mode and the socio-demographic background of the community impact on child road casualties. For more information and to view Wirral results [here](#) or Executive Report [here](#) Factsheet [here](#) Local Authority Tables [here](#)

[Alcohol and pregnancy: preventing and managing fetal alcohol spectrum disorders](#)

This report outlines the responsibilities of healthcare professionals and sets out a wide-spectrum of recommendations for policy makers, to improve the prevention, diagnosis and management of fetal alcohol spectrum disorders. Access report [here](#)

[Special educational needs and their links to poverty](#)

This research explores why the links between special educational needs and disability (SEND) and poverty are so strong. Access report [here](#)

[The impact of adverse experiences in the home on the health of children and young people, and inequalities in prevalence and effects](#)

This report examines what adverse childhood experiences (ACEs) are, prevalence of ACEs in the UK, the health impacts, risk factors and what works to tackle ACEs. Access report [here](#)

The [What Works Centre for Wellbeing](#) aims to improve the wellbeing of the people in the UK by bringing together the best evidence, making it easy to use and easier to make. Their work entails understanding what national and local governments, along with voluntary and business partners, can do to increase wellbeing. The centre aims to undertake a knowledge mobilisation function to get evidence of what works to those areas and organisations that can use it to best effect. Take a look at the most recent newsletter [here](#)

[Tipping the scales: case studies on the use of planning powers to limit hot food takeaways](#)

Local Government Association

This report details seven case UK studies where local authorities have used planning powers to limit hot food takeaways. It includes a number of key messages such as: ensuring decision-makers understand the issues; using planning powers as part of a community healthy weight strategy; and engaging the whole community in discussion about implementation. Report [here](#)
