

## Wirral Joint Strategic Needs Assessment Bulletin

February 2016

[Not displaying properly? Access this bulletin online](#)

«GreetingLine»

Hope this first JSNA Bulletin of 2016 finds you well... I'm confident the content will be useful, if not interesting, for you and remember if you have anything new or from the past that others I'm sure will find interesting and inform their work then please let me share with the 1,500+ bulletin readers....

Kind regards as always

John

### Local JSNA Updates

#### [Wirral JSNA: Older People's section \(January 2015\)](#)

This updated and refreshed JSNA section looks at issues and needs affecting the older population. This is important for many reasons, most notably because although many people are able to enjoy their later years and make the most of their retirement, for others, it is a time where health and social contacts deteriorate and their later years are spent in poor health, with decreased independence. This section underpins the twenty pledges in the [Wirral Plan](#) this being focused on older people (Ageing Well in Wirral). View the section [here](#)

[Latest Economic Profile for Wirral](#) (November 2015) produced by Regeneration & Environment (Wirral Council) [here](#)

#### [Wirral JSNA: Local survey of ex-military personnel and veterans \(2015\)](#)

This short report outlines the survey results provided by the Wirral based *All Military Members Organisation or AMMO* in April 2015. This was an opportunity for ex-service personnel and veterans, living or accessing support in Wirral, to provide their insight into issues they see as affecting their lives. View document [here](#)

#### [Wirral JSNA: Sensory Service survey results \(2015\)](#)

This short report outlines the survey results provided by the Wirral Sensory Service in Autumn 2015. This was an opportunity for parents, carers and service users to provide their insight into the service they receive and issues they see as affecting their lives. View document [here](#)

#### [Wirral JSNA: Local maps including recent Indices of Multiple Deprivation \(IMD\) \(2015\)](#)

This new JSNA webpage hosts a range of maps produced for local reports. They are available here or specifically IMD options [here](#)

#### [Wirral JSNA: PHE Dementia Profile for Wirral \(2015\)](#)

This profile has been developed to support the work of the Dementia Intelligence Network (DIN) in providing health intelligence with which to inform the provision of care of people in England who have dementia. Access the dementia profile [here](#) or link to [dementia intelligence website](#)

Recent highlights include:

- [Wirral JSNA & Housing: Latest Update](#) (November 2015)
- [Wirral JSNA: Crime and Disorder Summary](#) (October 2015)
- [Wirral Ward Profiles](#) (October 2015) using Place Analytics data tool
- Indices of Multiple Deprivation (IMD) 2015 Economic Profile [here](#) provided by Wirral Investment Strategy Team, an Overall Profile [here](#) and Wirral IMD 2015 Atlas [here](#) from Public Health Intelligence Team
- [Latest local profile for Wirral: End of Life](#) (October 2015)

## More related information

### **Inequalities in health and life expectancies persist**

(Office for National Statistics Report December 2015) [here](#)

A new ONS report produced in conjunction with PHE has been published revealing the scale of inequalities in life expectancy and healthy life expectancy across England, but also within local authority areas. The data shows that wide inequalities exist not only between the most and least deprived areas of the country; but between the most and least deprived areas within local councils across the country. View [here](#)

### **Investing in Physical Activity** (CHAMPS network guidance, 2015) [here](#)

Physical inactivity is a serious and increasing issue for public health. This quick reference guide aims to support investing in physical activity. View [here](#)

### **Annual Report of the Chief Medical Officer (2014) as The Health of the 51%: Women** [here](#)

The report examines women's health in England and makes a range of recommendations to improve it. It identifies several missed opportunities for intervention in women's health, and brings attention to 'embarrassment' as a needless barrier to health. View [here](#)

### **Health matters: harmful drinking and alcohol dependence** (January 2016) [here](#)

This resource provides information on the harmful impact of alcohol dependency. It supports the commissioning and delivery of evidence based treatment interventions to address harmful drinking and alcohol dependence in adults. View [here](#)

### **Health survey for England, 2014** [here](#)

The Health Survey for England series was designed to monitor trends in the nation's health, to estimate the proportion of people in England who have specified health conditions, and to estimate the prevalence of risk factors associated with these conditions. The sample for the 2014 survey included 2,003 children (aged 0-15). Topics include children's body mass index, overweight and obesity. View [here](#)

### **The council contribution to public health: a time of challenge and opportunity** (Kings Fund, December 2015) [here](#)

District councils, as examples, have a key role to play in keeping us healthy. They have a distinct, local role in service provision, economic development, planning, and helping to shape and support their communities – all key areas that are increasingly recognised as vital components of a true population health system. This report aims to highlight these roles and help district councils play their full part in improving the health of their communities. They will need to do that within a national and local policy framework and a financial situation that provides not just challenges but also many opportunities, working in partnership with other bodies and local communities themselves. View report [here](#)

### **Sugar reduction: from evidence into action - Public Health England** (October 2015) [here](#)

This report details a review of the evidence on interventions to help the nation reduce its sugar consumption. It contains options such as further regulation of promotions, restrictions on the marketing of high sugar products, fiscal measures and a voluntary reformulation programme. View [here](#)

### **Sporting Future - A New Strategy for an Active Nation**

(Sport England, December 2015) [here](#)

This cross-government strategy will tackle head on the flatlining levels of sport participation and high levels of inactivity in this country. Through this strategy, government is redefining what success in sport means, with a new focus on five key outcomes: physical wellbeing, mental wellbeing, individual development, social and community development and economic development. In future, funding decisions will be made on the basis of the outcomes that sport and physical activity can deliver. Access report [here](#)
