«GreetingLine»

Welcome to July's JSNA Bulletin ...

We have lots of new content and information including our 2015 Stats Compendium plus the latest Wirral Health, Child Health, Alcohol and Tobacco Profiles for 2015. I am sure you will find them all useful in your everyday conversations, for work, service planning and commissioning. As always let me know if you have anything to add to our JSNA to share with other readers, or general curiosity about Wirral JSNA ...

Kind regards,

John

[How has the age-related process of overweight or obesity development changed over time?](#)

Overweight and obesity are major threats to global health. The global prevalence of obesity has more than doubled since 1980. The [study results](#) show how younger generations, will have likely greater exposure to overweight or obesity throughout their lives and so have increased risk for chronic health conditions, all leading to the severe public health consequences in decades to come.
